

TRAVELER OF THE QUARTER

**LYNNETTE
GREEN**

Dear Women of the Midwest.

Traveling with Women of the Midwest has been a wonderful experience!

From the well-organized itinerary and supportive home team to the experienced and personable ambassadors, everything for an enjoyable trip was taken care of graciously.

My first trip was to gloriously green Ireland, where we were greeted by the warm hospitality of our tour guide and locals. While we visited historical sites, museums, and the beautiful countryside, numerous surprises made our trip even more enriching. From homemade scones at a country manor to a luxurious lunch at a famous castle, followed by an amazing hawk walk, or a night of Irish songs and dancing, they all added up to a memorable trip.

Belgium and the Christmas Markets were my next adventure, and it is true that Belgian chocolates are the absolute best!

We had many fun adventures, enjoying the excitement and beautiful decorations of the Markets, along with historical sites. We also enjoyed learning about lace making and tried our hands at making chocolates and Belgian waffles. Each of us returned home with delicious memories and suitcases full of Belgian delights!

Both tours are highly recommended; my next adventure is Norway and Sweden this July. I'm excited!

Sincerely,
Lynnette Green
